

# ASI PROSPECT HUNTER

## ASI Prospect Hunter Powers Your \_\_\_\_\_.

A. Sales Team   B. Marketing Team   C. All of the Above

● **When you examine all the factors** to qualifying sales leads, the results can be both overwhelming and time-consuming. Before even initiating contact, one must consider criteria such as: credit history, location, product lines, business volume, number of employees and more.

● **ASI Prospect Hunter helps your sales team** spend less time analyzing leads and more time making sales. Working within ASI SalesPro *powered by Oracle*, Prospect Hunter sorts requested data on distributors to generate a list of leads you're trying to reach. This proves to be a great asset to both your sales and marketing teams.

● **Promoting new products, sales and offers,** for your company just became that much easier. When you power your marketing team with Prospect Hunter, you're giving them the competitive edge needed to generate more qualified leads. By entering customized criteria, marketers are more easily able to tailor campaigns to desired targets.

**Contact us to find out how  
ASI Prospect Hunter can power
